# INDIA INTEGRATED TRANSPORT & LOGISTICS

## S U M M I T 2 0 1 7

May 3 - 5, 2017 Vigyan Bhawan, New Delhi

**T**he Logistics sector in India is poised to grow exponentially and the time has come for focused interventions that can make freight movement efficient and seamless. Freight Logistics, comprising transportation, warehousing and value added services (VAS) spanning road, rail, sea and air, acts as an enabler and as a catalyst of economic growth.

As India prepares for a transition to the next level of logistics growth, Government is in the process of creating the necessary infrastructure along with regulatory policies and measures to chalk out a roadmap for the logistics sector. It is imperative for all stakeholders — including service providers, users and industry bodies — to work in collaboration for achievement of the objective.

The transformation of India's logistics landscape needs a

clear, long-term and sustainable vision encompassing initiatives that are proactive, rather than reactive, to leverage India's economic potential in the future. An integrated system based approach is thus needed which cuts across modes of transport, administrative geographies, and integrates capital investment with regulatory and policy development.

In the above context, the **India Integrated Transport and Logistics Summit, 2017** provides an ideal platform for various stakeholders from Government — Road, Rail, Air, Ports/Inland Waterways, Urban Planning, etc. —, Infrastructure developers in the private sector and Global experts to come together and discuss issues vital to the logistics sector. The conference, having the theme **Logistics Excellence** will cover:

### SESSION FOCUS

#### a. Transport & infrastructure: Key drivers for economic growth

- Road Freight Corridors for Economic Development
- Urban Transportation: New Developments

#### b. Multi modal logistics for competitiveness

- Public Private Partnerships: Multimodal logistics parks
- Supply chain transformation: Storage innovations
- New possibilities: Inland waterways & coastal shipping

#### c. Moving to future: Intelligent and integrated solutions

- GST: Changing logistics models
- Gateways: Congestion, clearances, transit time and role of Digitization
- Standards and skills for logistics

#### d. State Session

- Location Advantages: State Governments encouragement

#### e. CEOs Forum (Select 30- 40 CEOs with Minister & Secretaries to Go!)

Confederation of Indian Industry (CII)

**Exhibition:** - Coinciding with the Summit, exhibition would be held on all three days ( May 3- 5, 2017)

The Event will focus on the following segments:

### RAIL

### ROAD

### LOGISTICS

#### Road Construction

- o Road Construction Machinery
- o Asphalt and geosynthetics
- o Bitumen
- o Drilling, pile driving, mining and equipment instruments

#### Logistics

- o Material Handling Equipment
- o Packaging and Labeling Technology
- o Collection and Assembly Systems
- o Spare Parts Management systems
- o Inventory control systems
- o Cold storage/perishable goods storage equipment
- o Transport vehicles
- o Invoice automation technology
- o E-commerce logistics technologies
- o AI/Machine learning based order
- o Fulfillment systems
- o Big Data Analytics

- o Efficient Warehouse Designing
- o Logistics Aggregator Models

#### Bridge Construction & Tunneling

- o Formworks
- o Parapets
- o Bridge Management
- o Consultants, design and Architects

#### Road Safety

- o Traffic signs
- o Traffic Lights
- o Barrier Systems
- o Cones
- o Speed humps
- o Safety Clothing
- o Emergency Equipment
- o Consultancy

#### Services

- o Transport Infrastructure
- o Public Lighting

- o Road Construction & Maintenance
- o Tunnel Technology
- o Road Equipment
- o Road Markings
- o Street Furniture
- o Reflecting Materials
- o Consultancy & Research
- o Infrastructure

#### ITS Traffic Management

- o Communication
- o ITS Technology
- o Warning Systems
- o Fare and Toll Systems
- o Emergency Systems
- o Smart Card Technology
- o Traffic information & Control Systems
- o Urban Planning

### Exhibition Highlights

- Over 10000 sq meters space for exhibition
- Over 150 companies participating at exhibition
- Partner Country (Singapore, Japan, USA, UK) (Tentative)"State Participation to showcase the opportunities in the sector
- B2B, G2B meetings during the three days of the exhibition
- MOU's signing
- Over 5000 targeted visitors for the exhibition
